Dear Parents and Students,

Greetings!

September at Dhi School of Excellence was a month filled with celebrations, learning, togetherness, and meaningful experiences. It truly became a celebration of relationships and traditions.

From the vibrant Janmashtami celebrations and the joyful Mom & Me Competition to our special assemblies for Telugu Bhasha Dinotsavam and Hindi Saptah, our students experienced the richness of our languages, culture, and heritage.

The Ganesh Chaturthi celebration with our grandparents added a beautiful dimension to the month, strengthening the bond between generations and reminding our children of the values and traditions that connect us.

Alongside these celebrations, we also conducted our Second PTM, providing an opportunity for parents and teachers to come together and reflect on the children's learning and readiness. The month concluded with the Term 1 Examinations, marking an important milestone in our academic journey.

September was indeed a month full of events, emotions, learning, relationships, and traditions. Each experience helped our children learn beyond textbooks and grow with confidence, values, and a deeper appreciation for their roots.

Thank you, dear parents, for your continued support and partnership in making every Dhi experience meaningful.

HERBAL GARDEN: A STEP TOWARDS A SUSTAINABLE LIFE & GREENER SURROUNDINGS

In the honour of teachers, Dhi School of Excellence took a meaningful step toward sustainability and environmental consciousness by inaugurating an herbal garden on the school campus. On 7th of September

Our esteemed Director, Mr Prashant Terala, along with Dr Mona Mehdi, inaugurated the garden, whose vision and initiative gave this meaningful project its true purpose.

Joining the dignitaries, Principal Ms. K. Rupa, along with the dedicated team of teachers, planted medicinal saplings, symbolising our collective commitment to nurturing nature and creating a healthier, greener environment.

This initiative will provide children with a hands-on learning experience, helping them understand the importance of caring for nature, making healthy food choices, and respecting the environment. As they plant, nurture, and care for their saplings, they will also develop the values of responsibility, patience, compassion, and care.

When children nurture a plant, they nurture responsibility. When they nurture nature, they nurture the future.
